SHARP™ LEADERSHIP ACADEMY

CLIENT & PROFESSIONAL REFERENCES

Governance Intelligence • Leadership Development • Ethical Infrastructure™

Selected voices reflecting the practical application, rigour and leadership impact of SHARP™.

ORGANIZATIONAL CLIENT • GOVERNANCE INTELLIGENCE PILOT

Yves Zieba

Chief Architect of Integrated Outcomes (CAIO) | Founder @ Syntezia

"I have had the opportunity to collaborate with Simer during the SHARP™ Governance Intelligence Pilot. I particularly enjoyed her ability to listen, test, summarise and articulate relevant recommendations to further improve our corporate governance, trust and transparency. Simer helped our company to identify immediate quick wins and prioritise longer term priorities to prepare for its growth phase. She explained the concepts, clarified doubts and question, and put a lot of emphasis about implementing action points, sharing key progress documents with stakeholders. As a result, our company now has a clear and credible path towards SDG16, trust and transparency compliance. I recommend Simer to any leader who wishes to onboard key stakeholders and management team towards higher leadership and ethical standards."

PROFESSIONAL & STRATEGIC REFERENCE

Dr Renuka Thakore

Strategic Advisor | GSFN | Global Summits | Empowering Communities | Sustainability Leader

"Simer Dhillon is a visionary leader whose work as Global Chair for SDG-16 at GSFN has been exemplary. As the Chief Architect of the SHARP™ Leadership Academy, she has successfully bridged the gap between global governance and practical leadership training. Her modules reflect a rare level of rigor, focusing on ethical infrastructure and institutional integrity. I highly recommend Simer for any organization looking to build high-integrity leadership frameworks that align with global standards for peace and justice and strong institutions."

SHARP™ LEADERSHIP ACADEMY

PROGRAM PARTICIPANT • STANDARDS MODULE

N.F.

Leadership expert & HR strategy consultant

“The Standards module touches a very sensitive, complex and essential topic of leadership, that most people are never taught about and face a lot of challenges related to them. It also teaches in various formats so we can not only read the theory and connect with the pillars, but also understand it in reflections, exercises and study cases.”

EXPERT REVIEW

Vadim Subotin

PhD in Psychology, Researcher, Writer, Reviewer, Statistician (R)

“Drawing on the extensive literature on leadership and using an ethical, humanistic and value-based approach to leadership, the author designed a brilliant theoretical and practical framework to teach managers to be compassionate and resilient, emotionally intelligent and able to stand adversity. The SHARP™ approach, not being restricted to individual, situational, or behavioural factors of leadership, delves into the physiological and psychological processes that underlie effective leadership. The self-reflection exercises and self-regulation techniques proposed by the author aim to help leaders gain a balance between empathy and endurance in managing people.”

SHARP™ LEADERSHIP ACADEMY

PARTICIPANT VOICES

Governance Intelligence • Leadership Development • Ethical Infrastructure™

Ongoing leadership development and SHARP™ learning experience

SHARP™ PLUS MEMBERSHIP

Guneet Kaur Sidhu

Google Review • 5-star participant feedback

“Joining the SHARP™ Plus membership has truly elevated my leadership journey. The structure, mentorship, and community have helped me develop clarity, confidence, and purpose. Every session feels like a step forward in becoming the kind of leader who inspires others.”

SHARP™ LEADERSHIP RESET

Baljot Dhillon

Google Review • 5-star participant feedback

“Starting with the SHARP Leadership Reset was the best decision — it’s powerful, practical, and inspiring. The membership tiers make it easy to grow at your own pace. I can’t wait to experience the full SHARP course!”

SHARP™ Leadership Academy

Ethics is Leadership Infrastructure.
